Australian Steel Institute

ASI Industry Guide Hand loaded steel shelving design and installation

Standards Australia

AS/NZS 4600-2005	Cold-formed steel structures
AS 4100-1998	Steel structures
AS 4506-2005	Metal finishing - Thermoset powder coatings
AS/NZS 2728-2007	Prefinished/Prepainted sheet metal products for exterior building applications - Performance requirements
AS 3566.1-2002	Self drilling screws for the building and construction industries - General requirements and mechanical properties
AS 4291-2000	Mechanical properties of fasteners made of carbon and alloy steels
AS 1110-2000	ISO metric hexagon bolts and screws - Product grades A and B

Storage Equipment Manufacturers Association (SEMA)

Code of practice for the design of low rise static steel shelving - Shelving users guide

European Federation of Materials Handling Associations

FEM 10.2.06 Design of static steel shelving

QUALITY & ENVIRONMENTAL CONTROL

We have developed and implemented an Environmental Management System (EMS) that not only ensures legislative awareness and compliance, but gives us the ability to identify cost savings with greater emphasis on “resource, waste and energy management” minimising our environmental footprint.

Customers can be confident that our strong EMS gives us the structured framework to quantify, monitor and control the impact of our operations on the environment, now and in the future.

We also have a Quality Management System (QMS) focused on maintaining consistently impeccable customer service to our clients, along with the delivery of quality products and services that meet international standards. Our mature QMS provides us with “quality” systems, “quality” staff and the customer with a guaranteed “quality” product.

COLOURS

Our stock colour range is a refined selection that will always have the shortest lead times.

If you are looking for a customised look for your office fit out, then we also have a large range of colour options to suit your needs.

Vinyl Wrap:

If a standard colour finish is not to your liking, we can also provide a vinyl wrap that is applied directly to the unit. This makes the artwork potential limitless, ensuring that the Aislesaver® will suit any work place environment.

For the full range of colours that we can provide, please see an up to date version of the dulux powdercoating range.

Please note: custom colouring is only available for orders over a certain quantity.
